

REQUEST FOR ASSOCIATED RECEPTION, NETWORKING EVENT OR WORKING GROUP MEETING

The Wildlife Society's 2021 Annual Conference:
November 1-5, 2021

DEADLINE FOR SUBMISSION: August 30, 2021

In order to minimize conflict with our educational programming as much as possible, we have prescheduled designated meeting blocks into this year's conference agenda as outlined below. Please fill out the fields and be sure to indicate your expected number of attendees. To reduce Zoom usage and expense, TWS will assign any meeting of less than 50 attendees a video conferencing room within the virtual platform. Meetings larger than 50 attendees will be assigned a Zoom room. If you have a meeting of less than 50 attendees and would like to use Zoom, your group must set up its own meeting and may provide TWS with the link to include on the conference agenda. Please note that meetings scheduled through TWS are open to registered conference attendees only, and any meeting links provided will be made accessible through the conference platform. If you are expecting participants or guests who are not registered for the conference, your group will need to set up its own meeting and distribute the link to those participants. At this time, we are not accepting meeting requests for Monday, November 1, due to the workshops scheduled for that day.

Please list the name of your Working Group, organization or agency, and how you would like your event listed:

Please select your preferred date and time:

Tuesday, November 2, 2021 (circle one)

10:00am – 12:00pm 4:00 – 6:00 pm

Wednesday, November 3, 2021 (circle one)

10:00am – 12:00pm 4:00 – 6:00 pm 6:00 – 8:00pm
